

Workshop: A Guide to Hindu Dharma for Emergency Response Teams

Vallabha Tantry & Ami Patel

2:30 PM - 3:30 PM

While emergency response teams have often gotten primers by other faiths/traditions, many do not know much about their Hindu community members. In this workshop, we will be developing a short guide to Hindu Dharma for use by emergency response teams. While Hindu dharma is practiced by a diverse set of people with different customs and cultures, this guide will provide general guidelines and answer questions asked by actual police officers, firefighters and medical responders.
