BIO

A LITTLE BIT ABOUT ME

I am a 15- year old high school sophomore. I have been involved in my temple community for a little over 9 years and am an active participant in my temples FOLK 4 program. I volunteer frequently in various programs in temple. Outside of my temple activities and academics, I enjoy participating in wrestling, playing guitar, baking, and reading.

WHY AM I HERE?

PRESENTATION ABSTRACT

Today I am going to be talking about how to engage youth in Mandir activities. By the end of my presentation I aim to give a new perspective on effective strategies to get youth interested in participating in mandir activities as well as sharing some personal observations and experiences. I hope to point of specific courses of action and tangible steps necessary to promote youth interest in mandir activities.
